

# GO for Android

## GLOBAL OPENNET (GO) USER GUIDE FOR ANDROID

### Steps to Setup and Logon to GO

1. On the Android device, open the **Play Store**.

2. Search for **Citrix Receiver**, tap **Install**, and then tap **Accept** to install the Citrix Receiver app.
3. Tap the **Receiver** icon to open it.

4. Tap on **Set up my enterprise apps** to setup the Citrix Receiver's connection to GO.
5. Tap the **Menu** button on the Android device and tap **Manual setup**.

6. Enter in the following information:

- **Address:** https://cag.state.gov
- **Type:** Access Gateway
- **Description:** GO
- **User Name:** OpenNet User Name
- **Password:** OpenNet Password
- **Domain:** DoS Domain (e.g., AF, CA, DS, EAP, EUR, NEASA, OIG, SES, WASHDC, WHA)
- **Gateway Type:** Enterprise Edition
- **Authentication Type:** Domain + Security Token

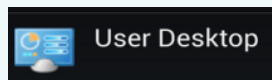

7. Tap **Add**.

8. Tap on the **GO** account and enter the following information:

- a. **Password:** Enter OpenNet Password
- b. **Passcode:** Enter the PIN followed by Token Code (XXXXXXXXYYYYYY)

9. Tap **Connect**.

10. Tap on **User Desktop** to launch the GO User Desktop.

11. A legal disclaimer will display. Tap **OK** to accept the legal disclaimer.

## Steps to Log off from GO

**\*\*Important\*\* Must log off from both places**

1. Tap the **Start** menu and then tap **Log Off**.
2. After the User Desktop closes, in the Citrix Receiver app tap the **Silhouette Icon** in the upper right corner and then tap **Log Off** to completely log off and end the Citrix session.
